EXPERIENCE

FRONT-END DEVELOPER

Edinburgh, United Kingdom (Remote)

Jedox Couriers

2025 - Present

- Contributed to the development of a multi-user courier management portal, delivering features used daily by drivers, admins, and operations staff.
- Built a self-service form builder for administrators, enabling faster workflow customization and reducing reliance on developer support.
- Built a production-grade operations platform that digitizes workshop workflows with real-time dashboards, scheduling, and inventory systems.

UI/UX SPECIALIST

USA (Remote)

Fx Professional Services

2025 - Present

- Led end-to-end design across the company as the sole UI/UX designer, driving all product and brand decisions from concept to delivery.
- Redesigned two core FileMaker products, improving usability, modernizing interfaces, and aligning them with scalable design patterns.
- Pioneered the adoption of Penpot (open-source Figma alternative) and revamped the company website, establishing a consistent, cost-efficient design system across platforms.

WEB DEVELOPER

California, USA (Remote)

Thinkinner Marketing Agency

2024 - 2025

- Led UI/UX redesign efforts for a U.S.-based tax matching platform & U.S. news site, improving visual hierarchy, UI modernization, and overall usability.
- Solely handled front-end development while collaborating closely with the backend developer to integrate APIs and dynamic content.

UI/UX DESIGNER INTERN

Davao City, PH

Ingenuity Software

May - July 2025

- Assisted in designing the admin and user interfaces for a golf management platform that handled team schedules, tournaments, and player activities.
- Collaborated with senior designers to refine wireframes and prototypes, incorporating feedback from actual platform users to improve usability and visual flow.
